

Clearing cache in Firefox

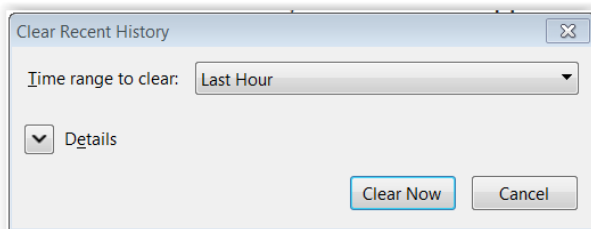

Click on the three horizontal lines at the right hand top of the screen

Choose **History** from the list

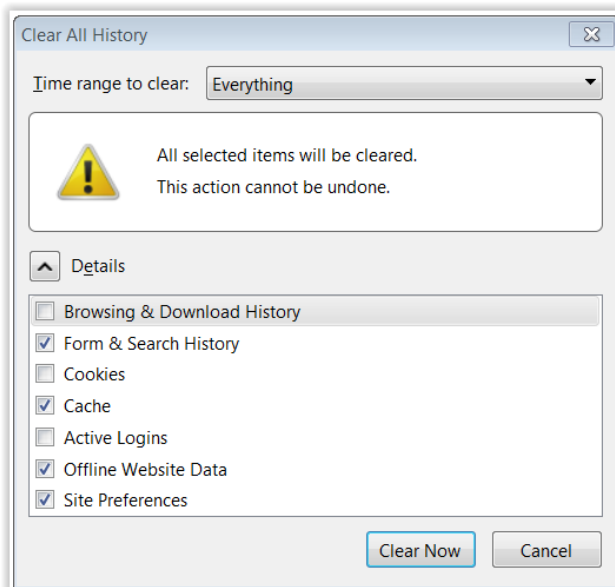

Choose **Clear Recent History**

From the dialogue box, click on the drop down arrow next to the time range to clear

Click **Everything**

Make sure **Cache** is ticked

Tick the following: **Browsing and Download History, Cache, Offline Website data, Site Preferences**

Click **Clear Now**.

Once the process is complete close and re-open your browser.
